

**EXISTENCE OF THE GLOBAL ATTRACTOR OF
SWIFT-HOHENBERG EQUATION**

Mustafa Polat
Yeditepe University

ABSTRACT. In this talk, some basic definitions and results which are related to the concept of "The global attractor" will be given. Then the existence of a global attractor for the "Modified Swift-Hohenberg" system will be proven. The mathematical tools in the book of G.Sell and Y. You will be adapted .
